

Reference

Ms Johanna Weigel, born on 15 April 2001 in Erfurt, Germany, worked as an intern in the Central Services, Solutions department of our Berlin office from 1 February 2024 to 30 June 2024.

KPMG is an organization of independent member firms with more than 273,000 employees in 143 countries and territories. In Germany too, KPMG is one of the leading auditing and advisory firms and has around 14,000 employees at 27 locations.

During her time in our company, Ms Weigel had the opportunity to get an overview of the business processes in the Central Services, Solutions department. In doing so, she was essentially entrusted with the following tasks under supervision:

User experience and user interface design of a web application for the creation of declarations of assessment:

- Planning and implementation of extensive user research activities (e.g. conducting and analyzing interviews), workshops and usability tests
- Creation and iteration of wireframes and transfer of these to an interactive prototype in Adobe XD
- Specification of design elements and user flows in a requirement sheet

Optimization of the user experience of an internal desktop application for employee workload management:

- Implementation of various user research activities (e.g. semantic analysis, analysis of the current status) to identify pain points and derive user needs and challenges
- Creation of solution ideas to increase efficiency and improve user satisfaction
- Visualization of the solution ideas in the form of wireframes

Conception, management and realization of the format series 'Design with AI':

- Responsible for in-depth research to evaluate the potentials and challenges of AI tools in user experience and user interface design
- Presentation and testing of various AI-supported design tools in interactive workshops at KPMG's Prototyping Lab

Development of a user-centered front-end for the digital sports facility atlas in the public sector:

- Development of a comprehensive user journey using user story mapping and the digital whiteboard Mural along with its AI functionalities
- Identifying user needs and deriving and visualizing essential product functionalities
- Creation of wireframes with the aim of enabling a standardized and consistent information architecture

Moderation of an internal AI workshop:

- Leading breakout groups to develop potentials and challenges in the use of Large Language Models (using targeted prompt engineering) in the internal solution work of KPMG Financial Services RPP
- Responsible for the methodological support and documentation of the results

Concept development for a UX/UI design workshop with the Munich University of Applied Sciences:

- Creation of a detailed workshop agenda for the processing of UX/UI design challenges using AI-supported design tools
- Coordination of workshop content to promote innovative design approaches and practice-oriented learning experiences

Ms Weigel has consistently delivered outstanding performance during her time at KPMG Innovate. Her outstanding skills in user research and prototyping are particularly noteworthy. Thanks to her in-depth analysis, she was able to precisely penetrate complex problems and make informed decisions that significantly improved the user experience. On this basis, she developed low to high fidelity prototypes, which she enriched with exceptional creativity. In addition, she proved to be extremely adept at using Adobe XD and Mural tools, which she used efficiently to visualize her ideas vividly and prepare workshops professionally.

Ms Weigel consistently demonstrated excellent learning and work motivation. She has a very quick grasp and demonstrated consistently excellent organizational, analytical, and judgment skills. Ms Weigel showed a great interest in all practical learning opportunities and consistently fulfilled the learning requirements associated with her internship very well. She proved to be an extremely committed, conscientious and independently working intern who completed the tasks assigned to her in a planned and systematic manner at all times. In doing so, she always showed a very high degree of reliability and initiative. Her work results were always of very good quality. Ms Weigel always completed the tasks assigned to her to our utmost satisfaction.

Due to her friendly and courteous manner, Ms Weigel was highly appreciated by all conversation partners at all times. She was always able to integrate very well into the team. Her behavior towards supervisors and colleagues was always exemplary.

Ms Weigel is leaving our company at the end of the agreed period. We thank her for the always very good and committed cooperation and wish her all the best and continued success for her further career and life.
