Summary

As Max's mother, I'm concerned about what appears to be unfair treatment from his teacher. Max seems to be singled out for discipline when other students exhibiting the same behavior receive lesser consequences. This has happened multiple times, most recently when Max was sent to the principal's office for talking in class while other students doing the same thing only received warnings. I've attempted to address this with the teacher through emails and a parent-teacher conference, but the situation hasn't improved. Max is becoming increasingly anxious about school and his grades are suffering.
